Vyndamax® (tafamidis) 61 mg capsules

The Inflation Reduction Act introduced changes to help lower out-of-pocket (OOP) costs for Medicare Part D medications:

- In 2027, there is a **$2,400 cap for all your covered brand-name and generic prescriptions** for the year. This includes your annual deductible
- You will have the option to spread your OOP costs throughout the remainder of the 2027 calendar year, by opting in to the Medicare Prescription Payment Plan. **All Medicare Part D and Medicare Advantage plans will offer the Medicare Prescription Payment Plan (M3P)*, and it's completely optional to join**

Details on the Medicare Prescription Payment Plan (M3P)

You can sign up anytime during the plan year by contacting your health plan

You must contact your plan to start participating in this program prior to filling your prescription

You will not pay the pharmacy directly

You will receive a bill from your Part D drug plan†

Plans are encouraged to offer multiple payment options, such as electronic funds transfer or by check

You must opt in again if you switched health plans in 2027‡

*There is no fee to join the Medicare Prescription Payment Plan. The program does not cover your monthly premium. You need to opt-in to the payment plan before filling your prescription. Please know you may also leave the program any time during the plan year.

†You will continue to get a bill for your plan premium (if you have one).

‡You will automatically be renewed into the payment plan if you did not switch health plans in 2027.

According to CMS:

✓ M3P May Be Beneficial for

- *Patients that have high prescription costs earlier in the year*
- *Patients who have difficulty paying for their medication costs all at once*

✗ M3P May Not Be Beneficial for

- *Patients who have low, stable costs*
- *Patients enrolled in the Medicare Extra Help program*

How to sign up for the Medicare Prescription Payment Plan (M3P)

Opt in via telephone by following the steps below:

Step 1:
Call your plan's phone number, which is usually on the back of your prescription drug plan ID card

Step 2:
Tell the plan's representative "I would like to opt in to the Medicare Prescription Payment Plan"

— *Please have your Medicare Number ready, which is usually located on the front of your Medicare Card*

Step 3:
Ask your plan to send a confirmation letter or email of your participation in the program (and retain for your records)

Step 4:
Request a confirmation number when opting in and write it below for reference

Opting in[§]:

- You can opt in by visiting your health plan's website, by calling your prescription drug plan, or by mailing in a participation request form from your health plan
- To avoid delays, you may consider opting in to the payment plan before filling your prescription
- During the plan year, plans are required to process and confirm enrollment within 24 hours

  — *Prior to the plan year, plans are required to process enrollment within 10 calendar days*

There are no costs, interest, or fees to opt in to the payment plan

[§]You can opt out at any point during the plan year. If you opt out of the payment plan, you will still be responsible for the OOP balance associated with your prescriptions.
