

Patients can receive their medication through either a National or Eligible Outpatient Specialty Pharmacy once you have prescribed VYNDAMAX

National Specialty Pharmacy

Send your prescription to one of the national Specialty Pharmacies in the defined distribution network.*

See list on the back or at
www.VyndamaxHCP.com

Outpatient Specialty Pharmacy, where applicable

Send your prescription to an eligible outpatient Specialty Pharmacy.

No matter which pathway you choose, a prior authorization (PA) may be needed.†

You can use CoverMyMeds®† to electronically submit PA requests to any health plan through a no-cost online platform at www.CoverMyMeds.com or integrated EHR system.

For more information, contact CoverMyMeds via live chat
www.CoverMyMeds.com or by calling 1-866-452-5017

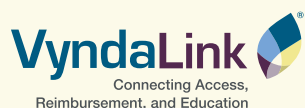

Pfizer Field Access Specialists (FASs) can help providers and staff navigate the PA process and financial assistance options, if needed.

Ask your Pfizer representative to connect you with a FAS for more information.

Pfizer Patient Access Coordinators (PACs)§ work directly with patients to offer education and case support.

All patients prescribed VYNDAMAX can request support from a Pfizer PAC through MyPACSupport.com.

For patients in need of financial assistance, VyndaLink may be appropriate for:

- Medicare/government-insured patients who are unable to afford their medication and do not qualify for Extra Help or alternative funding sources
- Uninsured patients

EHR=electronic health record.

*Access to VYNDAQEL® (tafamidis meglumine) is available through the same defined distribution network.

†Please note that where a PA request is required, the physician must submit required information directly to the patient's insurer.

§Pfizer PACs are employees of Pfizer. Pfizer PAC support is also available for patients prescribed VYNDAQEL® (tafamidis meglumine).

CoverMyMeds® is a registered trademark of CoverMyMeds LLC. This program is run by CoverMyMeds®, independently of Pfizer.

SPECIALTY PHARMACY INFORMATION

VYNDAMAX is available through a defined distribution network of Specialty Pharmacies.

While you may send your prescription to the dispensing Specialty Pharmacy of your choice, choosing a Specialty Pharmacy aligned to the patient's insurer may reduce barriers to patient access.

Below is a table that lists the network Specialty Pharmacies along with their associated Pharmacy Benefit Managers (PBMs)/Payers. Refer to your patient's health insurance card for guidance.
